SUMMARY

I am a full stack developer looking for a junior position where I can leverage my programming expertise and contribute to impactful projects. I am ambitious, highly motivated and eager to apply my unique blend of technical and analytical skills to real-world challenges and collaborate with dynamic teams to deliver innovative solutions.

EXPERIENCE

Syndicate, Montreal, Canada

Web Development Intern   2024-current

- Developed and customized WordPress plugins for client-specific requirements.
- Collaborated with the team to integrate third-party APIs and improve website functionality.
- Debugged and resolved issues with existing plugins to enhance performance and usability.
- Participated in code reviews and contributed to the optimization of development workflows.

Petrobras, Brazil

Contract Manager   2021-2023

- Analyzed, developed and maintained contract documentation.
- Negotiated terms with bidders and vendors.
- Diagnosed and resolved issues in service workflows.
- Coordinated relations between service providers, end users, inspectors and management.

Business Intelligence Analyst   2017-2021

- Automated data extraction from multiple sources.
- Created and maintained interactive dashboards to enhance data visibility and reporting.
- Collaborated with cross-functional teams to integrate analytic solutions.
- Participated in the development and implementation of in-house technology solutions.

EDUCATION

AEC - Information Technology Programmer-Analyst   2023-present
LaSalle College, Montreal, QC

GC - Strategic Contracting Management   2010-2013
Federal University of Bahia, Brazil

BAC - Business Administration   2004-2007
